FRANK.

Sentinel, Feb. 7.
Last Saturday Frank Misanioli, an Italian, who was working around the tipple at the Coal Creek mine, near Fernie, met with a fatal accident. He got caught between the planking on the upright supports of the tipple and a moving car and was so badly squeezed that he died from his injuries in a very short time.

E. G. McPhail, superintendent of P. McLaren's extensive lumbering interests in Alberta, was in Frank on business yesterday. Mr. McPhail stated that this has been a fine winter for the loggers as there has been just about enough snow in the bush to make logging easy.

The Fishburne coal mine at Blairmore is now appearing on the list as a regular shipper having lately sent one carload to the Hall mine smelter, one to Trail and another consignment to W. R. Hickey, of Nelson. Orders have been received at the mine for domestic coal from Calgary, Winnipeg and other points.

TAKE WARNING.

From reports received it appears that a more than ordinarily malignant type of scarlet fever combined with diphtheria is raging in Battleford and Prince Albert and the surrounding settlements. Many deaths are reported from both districts. The Battleford Herald of Feb. 4th contains a notice of the deaths on Jan. 24th, of two children of J. C. DeGard, grand children of the proprietor of the Herald, P. G. Laurie. The same issue of the Herald contains an account of the deaths of two children of T. H. McGaffin of Baljean. Five of Mr. McGaffin's children were all at once and a third death was hourly expected. The few scarlet fever cases which developed in Edmonton during the past two months have been comparatively light,—that is no deaths have resulted. But no one can tell how soon the disease might assume the virulent form which it has taken at Battleford and Prince Albert. The time to stop an epidemic is as soon as it starts. Don't be careless about communicating the disease because it is of a mild type. In all probability that is how it came to settlements such a virulent form in those settlements down the river, was allowed to run because it was not dangerous, until by process of growth it became dangerous and by that time it had become impossible to check it by ordinary means. There has been too much trifling with disease in this country, on the basis of the health giving climate. Of course the climate is health giving and tends to build up a strong constitution. But that does not stand in the place of careful treatment in the case of a virulent epidemic. The only safety is in taking the measures which science has shown to be adequate, to prevent a disease from becoming epidemic.

TRANS-CANADA RAILWAY

The special meeting of the board of trade called at the request of Messrs. T. O. Davis, M. P., and O. E. Talbot, M. P., was held in the council chamber last night. The meeting opened at 8.15, a very representative gathering of Edmonton's business men being present. President MacKenzie occupied the chair. After a few words in which the president said that the people of Edmonton were ever willing to hear railway projects discussed, O. E. Talbot, M. P., was called on.

Mr. Talbot begged the indulgence of the meeting saying that it was necessary for him to think in French and speak in English. In a few preliminary remarks he told of his surprise at finding here such a progressive commercial center as Edmonton is. The development of this Northwest country was far beyond his previous conception. The great drawback was the difficulty of getting and getting. How was this to be obviated? The Trans-Canada had a charter granted them some years ago, renewed with additional powers last year. The road was to start from Quebec or Chicoutimi, both ports which could be kept open all the year round. Hence by the existing railway to Lake St. John. From Lake St. John to James Bay and thence taking the most direct course through the northern part of the Territories and crossing the Rockies at the Peace River Pass, to Fort Simpson on the Pacific coast. Mr. Talbot enlarged on the magnificent natural resources of the country which the road would penetrate. He dwelt largely on the easy gradients on their proposed route pointing out that on this account they would be able to operate the road at less expense and hence be able to do cheaper hauling. The Trans-Canada will open up a country for millions. The company wants help from the government, either financial help, or a land grant. They were here to get the moral support of the people through their representatives. He said that although the railroad went far north of here, branches were a natural consequence. The Trans-Canada Railway Co. are ready in return for adequate assistance, to find themselves to take grain from a central point in the Territories to the open port at 9 cents a bushel and to bring in timber for settlers and their effects free of charge.

Mr. Talbot took his seat and Mr. Talbot.

Mr. T. O. Davis, M. P., was then called upon. He also enlarged on the possibility of the Northwest. Our greatest problem was that of transportation. Several canal schemes which were before the government, were compared with the Trans-Canada project, very favorably to the latter. We need an all year ocean port. The C. P. R. were absolutely unable to move four produce. The amount of money lost in the delay in getting out our grain would go far towards paying the interest on bonds of a new railway. The cry in the east was against subsidies. It is said that the east built the C. P. R. for us. But the land of the Northwest given to the company was enough at present value to build the whole C. P. R. Immediate action should be taken and the delegates wanted the different boards of trade, etc., throughout the country to give them their support. He spoke of the Hudson's Bay railroad, a project of Mackenzie & Mann. This railroad would tap the main line of the C. P. R. Other branch lines will likely be built but the great line of the Trans-Canada is to have a short all-Canadian transcontinental route.

Major Short was then called on. He agreed that transportation was our great problem. The only objection was that the Trans-Canada was not going to build the immediate demand for railroads in districts already settled. There were settlers at present absolutely without railway communication who needed it in the worst way. These settlers must get railroads or they would be compelled to move out. This would be a calamity to the country. The Trans-Canada would only bring us indirect benefits. He would give his moral support to the road provided it is safe-guarded by the conditions promised as to rates.

The chairman then called on Frank Oliver, M. P. Mr. Oliver could see great merit in the eastern portion of the proposed Trans-Canada line, Montreal could not long hold its position as Canada's eastern ocean port. This would ultimately fall to the lot of Quebec. A straight line from the southern or northern end of Lake Winnipeg to Quebec is as short as a line from either place to Montreal. Hence if grain were carried direct to Quebec it would do away with the expense of carrying it the 189 miles from Montreal to Quebec and with the necessity of spending many millions in the attempt to sufficiently deepen the channel of the St. Lawrence for the larger steamers of the present day. There were several very good points in the Trans-Canada project, namely, agreement to carry grain at a low fixed rate and shipments to an all year ocean port. The congested state of traffic on the C. P. R. was alluded to. However the Trans-Canada is not meeting the demands of the Saskatchewan Valley for immediate railroads. He would be glad to aid both railroad schemes, the Saskatchewan Valley and the Trans-Canada, but a choice had to be made—and he believed it would be the Trans-Canada to support the road that would supply the present pressing demands. He was glad to welcome these gentlemen to Edmonton, believing that the visit would result in spreading a good impression of the Edmonton district.

Mr. Anderson of the Union bank, was then called upon. He spoke favorably of the Trans-Canada project, mentioning our great need of railway facilities.

Mr. Talbot rose to say that he had omitted mentioning that the Trans-Canada Railway Co. were willing to bind themselves to buy all their material as far as possible from Canadian manufacturers. This would include steel rails, bridge material, etc. Branch lines from the main artery of the railroad would be sure to follow. The greatest advantage to the whole of Canada is the proper way to view this project.

Mr. Davis said that Sir Wilfrid Laurier had promised aid to the Saskatchewan Valley railroad, and that this should not hinder the granting of aid to the Trans-Canada.

The chairman, as president of the Board of Trade, promised the visiting gentlemen that the Board of Trade would give the matter their most careful attention.

THE RAILWAY QUESTION

Contributed.
A meeting was held in Salisbury school house Monday evening, Feb. 9th, to further discuss railway matters preparatory to a large mass meeting to be held a little later in Edmonton.

Geo. Ball was appointed to act as chairman for the evening and C. W. Richardson as recording secretary. After a few preliminary remarks on the subject of the meeting, the chairman called upon W. Ball to address the meeting.

Mr. Ball proceeded to give statistics showing what an injustice we suffer at the hands of the Canadian Pacific railway, due to high freight charges. Freight rates on the C. P. R. were compared with the rates charged by the Intercolonial. The speaker claimed that if the C. P. R. had been built by the government instead of by a private corporation, the prices which we pay for certain articles would be considerably reduced. Mr. Ball thought that it was to the interest of the farmer to pay due heed to this question of government ownership. At the coming session of parliament a number of railways were likely to ask the government for subsidies, and it was the duty of the people of the Northwest Territories to create a strong public sentiment against the government subsidizing any road without at least reserving a limited control of rates. Mr. Ball gave statistics which showed conclusively that the C. P. R. had cost the people of Canada infinitely more than the Intercolonial had the government. The speaker claimed that a government road was the best paying investment that the government could put a dollar in. The stockholders of the C. P. R. were not to blame for the injustice from which the people of western Canada are suffering. The blame lies solely with our representatives who have not been alive to the interests of the people whom they represent; and whose interests they are bound to serve.

Mr. Ball thought that the farmers had too long been indifferent to their interests, but it was time for them to present a solid front and to show in a determined manner the general sentiment of their class. Mr. Ottewill was next called upon to express his opinion on the question. He claimed that the argument put forth by many in opposition to government ownership of railways was that the Intercolonial had not been a paying road. It was the opinion of the speaker that if a road serves the purpose for which it was built and shows no dividends, it is as far as the people are concerned a paying road. Mr. Ottewill went on to show that farmers in this district are paying 10c a bushel more for freight on wheat shipped from Strathcona to Fort William than they would if the intercolonial railway were here instead of the C. P. R.

Messrs. Dore, Burgess and Palmer were also called upon to address the meeting and all declared themselves strongly in sympathy with the remarks made by the former speakers. The meeting now took the form of a business meeting. The following business was put on record.

Mr. Ottewill moved, seconded by W. B. J. that Mr. Dore be appointed treasurer to handle all subscriptions paid to him or the purpose of defraying expenses connected with the mass meeting to be held Feb. 21st. Carried unanimously.

It was moved by Mr. Ottewill, seconded by Mr. W. B. J. that all expenses connected with the mass meeting be handled by the secretary or the public hospital. Carried unanimously.

Moved by J. Ball, seconded by Mr. Hubert, that the minutes of this meeting be published in the Bulletin and Maudslayi.

In conclusion W. Ball moved a resolution seconded by Mr. Ottewill that this meeting is in full sympathy with government ownership of railways. Carried unanimously.

THE RENOWNED WESTMINSTER ABBEY CHOIR

Glee and Concert Party.

The Coronation Choir Glee and Concert party composed of a number of leading singers and boy sopranos who took part in the Coronation of their Majesties King Edward VII and Queen Alexandra on August 9th will be heard here in a delightful concert programme.

In addition of glee, madrigals and part songs this body of singers is unexcelled anywhere for beautiful blending, artistic and tasteful singing. The male alto voices and the boy sopranos supply the places of the female voices with wonderful sweetness, similarity and effect. Mr. Branscombe, the Director of the party and a lay vicar of Westminster Abbey in London, is an acknowledged authority on glee and part singing. He possesses a beautiful tenor voice and is a composer of note. Mr. Herbert Hilton, a baritone, is one of the foremost singers of England and is fast arriving at the top of the scale. Mr. Percy Coward, male alto solo is a surprising and pleasing novelty; he is the finest exponent of this exceptional voice in England. Madame Marie Hooton, the eminent London contralto, is a beautiful woman and a delightful artist; while the boys have the voices of angels.

Speaking of the Coronation Glee and Concert party's last appearance in Montreal the "Star" says—

"They gave a delightful programme of English glee, sacred music and solos. The smoothness and beauty of their part singing was most pleasing and the most difficult madrigals were given with an ease and a delicacy that were charming to the ear. On this occasion they favoured the audience with a couple of interludes and the anthem sung in Westminster Abbey at the Coronation. The anthem which was Gounod's 'Send out Thy Light' was rendered in a manner quite different from that to which Canadians are accustomed. It was beautifully shaded and exquisitely sung. The soloists were good especially Messrs. Leyland, Hilton and Coward. Master Forsythe sang a dainty little song by Coward, and Madame Marie Hooton rendered a number of Scotch ballads. Mr. Dudley Causton contributed a humorous musical sketch that caught the house."

The beautiful music of the English Cathedral rendered with a delightful delicacy and sweetness of expression will be illustrated by the Coronation Choir party here in their forthcoming concert at the Edmonton Opera House on Wednesday, Feb'y 18th, 1903. The delightful boy sopranos, the remarkable male alto, the fine tenors and baritones give a perfect vocal blending. The male alto soloist, for example Mr. Percy Coward, is the very finest exponent of this voice in England. He has the pure rich contralto notes of a Clara Butt. Mr. Edward Branscombe is an acknowledged authority on part song singing in London and is a composer of note. Mr. Herbert Hilton is a remarkable church singer and also conductor of an important choral society. Madame Marie Hooton, the lady vocalist, has a most rich and delightful contralto. Altogether the choir party is of a most exceptional character and its equal in music will not be heard again in Canada in many long years.

They are the choristers of the Coronation Choir from far-famed Westminster Abbey and they all took part in the Coronation of their Majesties, King Edward and Queen Alexandra. The boys are particularly delightful little chaps in their Eton jackets and Westminster school caps. They are said to have the voices of angels and their looks do not belie it. Mr. Edward Branscombe senior lay vicar of Westminster Abbey is director of the Choir party which is composed as follows—

Concert Contralto — Madame Marie Hooton.

Soprano Boys — Masters Leonard Hubbard, Reginald Hyde, Horace Marchant and Alf. Boughton.

Male Altos — Mr. Percy Coward and Mr. Walter Coward.

Tenors — Mr. Edward Branscombe and Mr. George Pownall.

Baritone — Mr. Herbert Hilton and Mr. Albert Archdeacon.

Entertainer — Mr. Dudley Causton.

The greatest musical event that happened in the annals of this town will be the appearance of the Coronation Choir Party.

This is a party of famous English singers and boy sopranos who took part in the coronation of their Majesty King Edward VII and Queen Alexandra on August 9th, last, in Westminster Abbey, and has been selected by Mr. Branscombe, lay vicar of Westminster Abbey, who is one of the acknowledged authorities on glee singing in England. They are assisted by Madame Marie Hooton the famous English contralto of charming voice and presence, and Mr. Dudley Causton, the well known English entertainer, who presents a very humorous sketch entitled "The Village Concert." The clear soprano voices are very delightful to hear, while a very interesting feature in addition to the regular numbers will be a male alto solo by Mr. Percy Coward. The male alto voice is peculiar to the English Cathedral where no women are allowed to sing and the women's voices are replaced by male alto solo and boy sopranos.

It has been rendered possible for the choir to be here by the fact that they are moving to the Pacific Coast on their way to Australia and they are enabled to stop over en route.

45. Can a person borrow money on a homestead before patent issue?

No. See clause 44 of Dominion lands act as to hiring money before making entry from private corporations.

46. How far is the prairie land from the railroad in your district.

Open prairie 30 miles east. The railway runs through partially wooded district with open patches all along from Ponoka north.

47. Is there coal in your district and at what price?

District underlain with soft coal; \$2 to \$3 per ton.

48. Would it pay to bring in breeding stock?

Yes.

49. What is the population of Northern Alberta?

Edmonton district about 40,000.

50. Can a settler get a pass to come out on?

No. Write railway company for rates.

51. What are the principal industries of Edmonton and surrounding country?

Cattle and grain raising, milling, lumbering, pork packing, trapping. Different towns have flour mills, tanneries, grain elevators, foundries, etc.

52. What chances are there for a market gardener?

Good for one who has capital and knows his business.

53. What is the price of fuel?

Wood \$2.00 per cord; coal \$3 per ton.

54. What is the rate of board at private houses and hotels?

Private house \$5 per week and less. Hotels \$1.00 to \$2.50 per day.

55. What is price of barbed wire?

\$4.50 per hundred.

56. What churches have you?

All denominations Methodist, Presbyterian, English, Baptist, Catholic, Salvation Army, etc.

57. What are the store rents?

\$20 to \$75 per month.

58. Are there any schools?

Yes. School districts are formed throughout the entire district. All the towns have excellent school buildings and the country schools compare well with those in the east.

59. Is taxation heavy?

No. The only taxes on a quarter section are the road and school taxes levied by the settlers themselves. They amount to about \$2.50 and \$5.00 per year per quarter section. There is no such thing as taxes on goods and chattels. \$7.50 to \$10 per year will cover all taxes on a quarter section.

Alberta Land Co.

Has 40,000 Acres of Land

Situated in the Beaver Lake, Vermilion, and Birch Lake districts. Also east of Lake St. Ann and north of Egg Lake. These lands have been selected with great care as to soil, water and meadow, also as to being mostly clear of timber and heavy brush. We are safe in saying one-half of these lands are open, lying up high and dry, and in many instances sloping to a river or creek of pure sparkling water; in some instances a spring of living water flows continually. In many places coal is found in large quantities. These lands range in price from \$5 to \$8 per acre, according to location. Maps and advertising matter can be had on application.
